EXPERIENCE

DIGITAL DEVELOPER / Finer Vision - London, United Kingdom   *02/2018 - 10/2024*

Enjoyed working on small to large sized web/native projects as well as legacy projects, timely delivering bespoke experiences for brands such Sainsbury's PayPoint UKpowernetworks AstraZeneca Pfizer HSBC and many others while also supporting my co-workers troubleshooting issues, sharing knowledge and adapting to new technology

Accomplishments

- Mentor developers and influence adoption of best practices among development team
- Developed various responsive web projects using React
- Developed responsive mobile applications using React native and expo
- Maintained legacy projects
- Kept up-to-date with latest developments to increase team productivity
- Developed reusable React UI Components to increase productivity
- Investigated and troubleshooted legacy data migration issues and optimised performance on various apps
- Automated content insertion into various native/mobile apps using google APIs
- Supported timely delivery of web and native projects, ensuring outstanding quality and standards
- Evaluated and proposed solutions for complex software architectural challenges
- Improved SQL skills throughout analysis, querying and proper displaying of bulky and intricate data
- Performed advanced API integrations such as: AWS, Google Cloud, Stripe, PayPal, Twilio etc
- Developed new concept and tactics of planning, tasking and maintaining old and new projects
- Setup virtual machine with necessary software to serve for the web
- Worked as a part of agile/kanban team

Technologies

Frontend: React, NextJS, React Native, Redux, Angular, less, scss, bootstrap, tailwind, webpack, Jest, HTML5, CSS3

Bundlers: Webpack, grunt
